

Care and Processing Instructions

- For PVC-lightweight coatings -

Imitation leather with textile carrier and PVC soft coating with a maximum thickness up to 1.5 mm for protective workwear, imitation leather for upholstery and table coverings

Wash cold at 30 °C
by using a mild detergent.

Gentle drying is allowed
up to 60 °C.

Bleaching is not allowed.

No dry cleaning.

Do not iron.

Further Indications

- In case of light stains, wipe the surface with a pH-neutral soap solution and a soft cloth.
- Do not clean with organic solvents (alcohols), aggressive soaps or abrasive cleaners. Disinfection only with disinfectants recommended by us (list available on request).
- No special care for material preservation necessary. Do not use leather care products that contain oils or greases, these can even shorten the service life!
- For upholstery, insert a PES nonwoven (40 g/m²) between foam and the imitation leather and do not use solvent-based adhesives.
- The listed indications are not a guarantee and do not release the user from his duty of care when handling materials and cleaning agents.
