

# DUST

Everything in the upholstery fabric Dust evokes genuine pull-up leather. The fine graining and the two-coloured contrasts in addition to the tactile

quality of the fabric extremely closely reproduce the typical characteristics of greased leather. The characteristic feel is soft, sumptuous and silky.

Typical product characteristics:

In the course of use patina, shine spots and l or brightening may occur. Cover fabrics with light colors show dirt and denim abrasion faster and more clearly than dark colors. Foreign colors, e.g. caused by cushions with insufficient color fastness, cannot be avoided. The surface tends to be sensitive to scratches. A slight loss of color when exposed to UV radiation is unavoidable, especially with light colors. In the case of light colors, color migration may occur in combination with dark or intensive color tones. Slight color and structure deviations between the production batches cannot be ruled out.

# CLEANING INSTRUCTIONS

Daily care and at-home cleaners can keep your fabric looking beautiful for years. In the case of a spill, stain, or general wear and tear, follow our tips on how to clean a fabric.

For cleaning you need distilled water and a ph neutral shampoo.

You need a white, clean and soft cotton cloth. Use this to remove the stain in circular motions and allow the area to dry.

Cleaning only with the vacuum cleaner nozzle.

Recommended care labeling:

washing

bleaching

drying

ironing

dry cleaning

Instructions for use and care:

Please take note of the instructions for use and care at [www.eurotex2000.com/Care](http://www.eurotex2000.com/Care) instructions. We assume no warranty for damage caused by improper use, cleaning, care, subsequent impregnation and pets.

Cleaning instruction:

Important information and useful tips for optimum cleaning and care of your upholstery fabric can be found at [www.2-clean.de](http://www.2-clean.de). Further cleaning will have to be done by professionals who specialize in how to clean with this description.
